“ *I was in College when my next door neighbor and Father of my friend Rob Reagan asked me if I wanted to assist him in surgery as his partner had come down with Rocky Mountain Spotted fever. That was the start of my surgical career, although I ended up as an OB/GYN surgeon, for years I wanted to be an Orthopedic surgeon due to his example. I still remember everything I learned from him that summer and the 6 week externship/paper I spent with him during the following year. I will miss him.*
