“ *I love you Dad . I have great memories of you and our family. You showed us how to work , and play. You took us fishing, to Sandusky park , and other places. You bought my first car . I hope we could have spent more time together. I miss these last years not being closer. I enjoy the last day's with you and mom. I saw you laugh and joke around , and I feed you and took you Home. Love, Love always Gilberto and family , and Mom and the rest of the family.*
