“ *He was definitely one of a kind! We dated for awhile and after we broke up he was still there for me as a friend. I was in a motorcycle wreck in 2010 and suffered from a broken pelvis. He came to F'hope took me to his house and took care of me for about a week. He was an awesome cook and guitarist. RIP my dear friend!*

“ I met Jim when we were 13 years old. I went to his house to spend some time with him and we were skateboarding on his pier. My board went into the water and it was too cold to jump in and get it so we used a boat hook to fish it out of the water. It was the first of many adventures we shared over the years. I've been out of touch in our older years but will always remember the fun times we had.
