“ *I never will forget being pregnant with Bre and seeing Ricky and Susie right after and him asking me if I had been on the one day diet - We laughed so hard, he was always picking and having fun❤️ - Karen King*

“ *I will never forget the smile he always seemed to have on all the time. His love for children and his way of always teasing us as kids, but making us laugh by doing so . He always messed up my hair everytime he got near me even after I was grown. Just a little trade mark of his. There are to many memories, he was a great man and he will always be missed. With all out love Denise and Tony*

“ So many childhood memories staying with my Aunt Edna & Uncle Joe and all of my cousins. So much fun! How we all survived to be adults is amazing. Wished I had spent more time with you and everyone else. Prayers to your family for strength and comfort during this time of grief.
