“ I am just now hearing about Randye's passing, and I am so sorry for your loss. I have very fond memories of Randye, and can still see her smile. I also worked with Randye at The Naval Research Laboratory and visited with her daily as her office was right across the hall from mine. She kept her office door open to help all those with financial questions. She was our Branch Financial Asset Manager - a demanding position that I saw many fill, or try to, over my 35 years at NRL. Randye seemed to calmly and easily slip into the position that frazzled many others before her, and she was always trying to be of help and offer a smile. It was a privilege to know her and consider her a friend.

“ I am so sorry to hear of Randye's passing. I worked with her at the Naval Research Laboratory. She stayed with me for the last couple of months before she retired and Bob was in Alabama. I remember that when she cooked for us, she would make something great like gumbo and when I cooked for her we went out or had watermelon. She was such a caring woman and so devoted to her family. Please accept my deepest condolences.
